REQUEST OF BUREAU:

In view of the fact that the subject is one of the three most important current targets assigned to NH 445-S by the Soviets, along with the fact that the subject was formerly employed by CIA, it is requested that the Bureau through liaison contact CIA for any pertinent information concerning the subject subsequent to information contained in CIA memorandum dated 10/12/65, which was furnished by CIA to the United States Secret Service.

CSCI-316/03800-65 ✓

① Bureau is also requested to ascertain from CIA all background information concerning the subject's confinement in a mental institution inasmuch as CIA had previously advised the Bureau of subject's confinement in a mental institution but failed to furnish the name of the institution, dates of confinement, etc.

② It is also believed that any information concerning efforts on the part of CIA to discourage subject's possible repatriation to Latvia or any information concerning any type of influence being exerted by CIA upon subject would be beneficial to the NYO and NHO in conducting investigation on the subject.

③ It is also requested of the Bureau to ascertain from CIA the extent of harm the subject could cause to current ICA operations in the event the subject would become cooperative with Soviet intelligence.

It is felt that it would be beneficial to the Bureau if CIA could advise as to whether or not the subject had any contact with Soviet intelligence officers while subject was assigned overseas. If the subject had such contacts, the Bureau should obtain the complete identification of such Soviets.

NOTE: When corresponding or discussing this matter with the FBI no indication is to be made that we have this paper or info which OS/SA's received informally.
